Plug-in Dimmer with Z-Wave Technology

decora smart™

needed. Also allows users to remotely control free-standing lamps individually or as part of a scene or zone grouping using compatible Z-Wave controllers.

Z-WAVE PLUS CERTIFICATION
- Increased communication range
- Network Wide Inclusion
- Support for beaming and secure commands
- Over The Air (OTA) updates

FEATURES AND BENEFITS
- Transient surge protection to IEC Level 4
- ESD protection to IEC 1000 4-2 Level 4 to protect against damage
- Indoor use
- Green LED locator
- Z-Wave® Plus certified and compatible
- Compatible with vizia rf + systems
- Frequency: 908.42 MHz

PLUG-IN DIMMING MODULE
- Provides polarized 300W-120VAC NEMA 5-15R grounding receptacle
- Provides manual ON/OFF
- Provides ON/OFF scene and zone control compatibility
- 2-way status updates
- Protected memory maintains ON/OFF status of loads and during minor power fluctuations
- Button for manual control and dimming

APPLICATIONS
When using a compatible Z-Wave enabled controller, you can schedule or dim your plug-in lamps from anywhere. Automate plug-in lamps and holiday lighting without any new wiring - simply plug in the device and enroll it to the hub. Features two-way status updating for immediate notification and precise automation scheduling. The new lighting control accessories are engineered to function with extremely sensitive, low-wattage light sources, such as a single LED bulb in a hallway or a strand of holiday lights, ensuring LEDs do not glow when off. Reduce energy consumption, provide dramatic scene transitions, and utilize the wireless affordable plug-in for table and floor lamps.

The Plug-In Dimmer with Z-Wave Technology (DZPD3) is ideal for any residential setting where remote dimming of LED/CFL (up to 100W) and incandescent (up to 300W) is
