

## LR569 - ADJUSTABLE GIMBAL 5" LINE VOLTAGE TRIMS

### SPECIFICATION

120V 75W Max PAR30 MED E26

**Application:** Standard in residential adjustable illumination, these trims provide flexibility and versatility from a single rotary axis. They double as both a downlight and as an accent light. They are an economical way to provide general and accent lighting with both vertical and horizontal aiming capabilities. Their large degrees of rotation result in both streamlined style and practical ergonomics. PAR gimballs offer a smaller opening aperture, as well as a more controlled light beam for accenting objects.

**Mounting:** Steel pressure springs mounted on trim to ensure positive retention inside housing.

**Finish:** Die-Formed Construction Available in White, Black and Natural.
